Skills

- **Languages:** Java, Python, C++, C, JavaScript, HTML, CSS
- **Cloud:** AWS (EC2, S3, RDS, Lambda, IAM, CloudFormation, Elastic Beanstalk)
- **Databases:** Microsoft SQL Server, MySQL
- **DevOps:** Docker, Kubernetes, Ansible, Jenkins, Git
- **Other:** OOP, Debugging, Responsive Design

Coding Profiles

- **LeetCode:** 75 problems
- **CodeChef:** 838 problems
- **GeeksforGeeks:** 11 problems
- **HackerRank:**
  - 5 in C, C++, Python, Java; 30 Days of Code
  - Problem Solving: 3, 2
  - Certificate: Problem Solving (Basic)

Certifications

- RHCSA – Red Hat Certified System Administrator (2024)
- Certiport Java, HTML, CSS, Python (2023–24)
- HackerRank Problem Solving (2023)
- CodeChef C++ Python Problem Solving (2023)

Languages

- Telugu: Native
- English: Fluent

Achievements

- Solved 600+ problems across platforms
- 5 in 4 domains on HackerRank
- Selected for NSP Scholarship (Top 3000 India)

Professional Summary

Aspiring Software Developer with hands-on experience in web development, AWS deployment, and backend programming. Proficient in Java and AWS, with 600+ problems solved across platforms. Built and deployed full-stack apps using Elastic Beanstalk. Seeking to apply cloud/backend skills in scalable software projects.

Education

Aditya College of Engineering & Technology Nov 2022 – May 2026
B.Tech in Computer Science
GPA: 8.5 / 10.0

AP Residential Junior College
Percentage: 94.1%

AP Residential School
Percentage: 99.33%

Experience

AWS Intern – Technical Hub Jan 2024 – Present
- Built and deployed an AI Job Recommendation platform using Flask, Selenium, and AWS
- Created resume upload system with parsing automation and intelligent job mapping
- Deployed static portfolio website using AWS S3, IAM roles, and CloudFront
- Worked with Flask APIs, EC2, and S3 for backend and file management

Web Development Intern – InterPe Aug 2023 – Sep 2023
- Built a responsive calculator and to-do list using HTML, CSS, JS
- Developed e-commerce comparison platform
- Achieved 98% test case accuracy in QA

Projects

AI Job Recommendation Platform
- Flask-based app that parses resumes and recommends job roles
- Automated extraction using Selenium and deployed backend using EC2
- Files handled securely via AWS S3 and IAM configurations
- Technologies: AWS, Flask, Python, Selenium, HTML/CSS

AWS Full Stack Deployment
- Deployed app using AWS Elastic Beanstalk
- Automated deployment and integrated front-end
- Tools: AWS, HTML, CSS, JS

Snake Game – Browser Based
- Classic Snake Game using HTML, CSS, JS
- Implemented game loop, collision detection, scoring
